Comp. Biochem. Physiol. Vol. 133A, No. 4 pp. I–V, 2002

ELSEVIER

# CONTENTS OF VOLUME 133

*Vol. 133A No. 1*

***Review papers***

**M. Nikinmaa** 1 Oxygen-dependent cellular functions—why fishes and their aquatic environment are a prime choice of study

***General papers***

**E.-M. Fröjdö, J. Westerlund and B. Isomaa** 17 Culturing and characterization of astrocytes isolated from juvenile rainbow trout (*Oncorhynchus mykiss*)

**M. do Carmo Fernandes Santos** 29 Drinking and osmoregulation in the mangrove crab *Ucides cordatus* following exposure to benzene

**A.R. Scholik and H.Y. Yan** 43 The effects of noise on the auditory sensitivity of the bluegill sunfish, *Lepomis macrochirus*

**W.W. Brooks, O.H.L. Bing, W.H. Gaasch, J.B. Karlinsky, R.H. Goldstein and C.H. Conrad** 53 Comparison of contractile function of diaphragm and cardiac muscle in response to paired electrical stimulation

**Z. García-Esquivel, V.M. Bricelj and H. Felbeck** 63 Metabolic depression and whole-body response to enforced starvation by *Crassostrea gigas* postlarvae

**K. Nakano and G.K. Iwama** 79 The 70-kDa heat shock protein response in two intertidal sculpins, *Oligocottus maculosus* and *O. snyderi*: relationship of hsp70 and thermal tolerance

**M. Samanya and K.-e. Yamauchi** 95 Histological alterations of intestinal villi in chickens fed dried *Bacillus subtilis* var. *natto*

**D. Julian, J.L. Statile, S.E. Wohlgemuth and A.J. Arp** 105 Enzymatic hydrogen sulfide production in marine invertebrate tissues

**T. Ichikawa and Y. Okada** 117 Co-ordination of firing activity of neurosecretory cells with cardiac activity in the silk moth *Bombyx mori*

**C.T. Downs, R.J. van Dyk and P. Iji** 125 Wax digestion by the lesser honeyguide *Indicator minor*

**B.-A. Battelle and M.K. Hart** 135 Histamine metabolism in the visual system of the horseshoe crab *Limulus polyphemus*

**T.A. Heming and A. Bidani** 143 Plasmalemmal $H^+$ extruders in mammalian alveolar macrophages

**C.B.R. Martinez and M.M. Souza** 151 Acute effects of nitrite on ion regulation in two neotropical fish species

**M.M. Souza, A. Stucchi-Zucchi, A.C. Cassola and E. Scemes** 161 Electrophysiology of cardiac myocytes of *Aplysia brasiliana*

**C. Drew, F. Lapaix, S. Egee, S. Thomas, J.C. Ellory and H.M. Staines** 169 Age-dependent changes in cation transport in the chicken erythrocyte

**M. Walther** 179 Taurine in the marine hydrozoan *Hydractinia echinata:* stabilizer of the larval state?

**K.K. Hintz, F.L. Norby, J. Duan, M.A. Cinnamon, V.A. Doze and J. Ren** 191 Comparison of cardiac excitation–contraction coupling in isolated ventricular myocytes between rat and mouse

***Corrigendum***

**D.M. Pampanin, L. Ballarin, L. Carotenuto and M.G. Marin** 199 Corrigendum to: 'Air exposure and functionality of *Chamelea gallina* haemocytes: effects on haematocrit, adhesion, phagocytosis and enzyme contents' [Comp. Biochem. Physiol. A. 131 (2002) 605–614]

I Instructions to Authors

## *Vol. 133A, No. 2*

***Symposium papers***

**P. Butler, T. Wang and T. Taylor** 201 Introduction to the symposium, Physiology and Biochemistry of Exercise

**T.M. Williams, M. Ben-David, S. Noren, M. Rutishauser, K. McDonald and W. Heyward** 203 Running energetics of the North American river otter: do short legs necessarily reduce efficiency on land?

**K.A. Hammond, M.A. Chappell and D.M. Kristan** 213 Developmental plasticity in aerobic performance in deer mice (*Peromyscus maniculatus*)

**C.M. Bishop, S. Ward, A.J. Woakes and P.J. Butler** 225 The energetics of barnacle geese (*Branta leucopsis*) flying in captive and wild conditions

**P.B. Frappell, T.J. Schultz and K.A. Christian** 239 The respiratory system in varanid lizards: determinants of $O_2$ transfer

**T.T. Gleeson and T.V. Hancock** 259 Metabolic implications of a 'run now, pay later' strategy in lizards: an analysis of post-exercise oxygen consumption

**D.F. Boggs** 269 Interactions between locomotion and ventilation in tetrapods

**J.A. Nelson, P.S. Gotwalt, S.P. Reidy and D.M. Webber** 289 Beyond $U_{crit}$: matching swimming performance tests to the physiological ecology of the animal, including a new fish 'drag strip'

**H.O. Pörtner** 303 Environmental and functional limits to muscular exercise and body size in marine invertebrate athletes

**J.F. Harrison and J.H. Fewell** 323 Environmental and genetic influences on flight metabolic rate in the honey bee, *Apis mellifera*

**R.K. Suarez and C.L. Gass** 335 Hummingbird foraging and the relation between bioenergetics and behaviour

***General papers***

**C.M. Evock-Clover, S.M. Poch, M.P. Richards, C.M. Ashwell and J.P. McMurtry** 345 Expression of an uncoupling protein gene homolog in chickens

**D.L. Goldstein and K. Plaga** 359 Effect of short-term vs. long-term elevation of dietary protein intake on responsiveness of rat thick ascending limbs to peptide hormones

**G.H. Engelhard, A.J. Hall, S.M.J.M. Brasseur and P.J.H. Reijnders** 367 Blood chemistry in southern elephant seal mothers and pups during lactation reveals no effect of handling

**M.T. Bailey and C.L. Coe** 379 Intestinal microbial patterns of the common marmoset and rhesus macaque

**C. Liyana-Pathirana, F. Shahidi, A. Whittick and R. Hooper** 389 Effect of season and artificial diet on amino acids and nucleic acids in gonads of green sea urchin *Strongylocentrotus droebachiensis*

**C. Szebedinszky and K.M. Gilmour** 399 High plasma buffering and the absence of a red blood cell β-NHE response in brown bull-head (*Ameiurus nebulosus*)

**J. Juśkiewicz and Z. Zduńczyk** 411 Lactulose-induced diarrhoea in rats: effects on caecal development and activities of microbial enzymes

I Instructions to Authors

## *Vol. 133A, No. 3*

**A collection from Chobe 2001- "*How Animals Work*", the 2nd International Conference on Comparative Physiology and Biochemistry in Africa, held in Kasane, Chobe National Park, Botswana, August 18–24, 2001**
**Guest Editors: Steve Morris and André Vosloo**

***Editorial***

**S. Morris and A. Vosloo** 419 'How animals work': the 2nd ICCPB in Africa: Chobe 2001 Kasane, Chobe National Park, Botswana: August 18–24, 2001

***Symposium papers***
